BONCAFÉ

M I D D L E E A S T L L C

Boncafe was established in Singapore in 1962 and founded Boncafe Middle East in 2003 evolving into becoming a leading manufacturer and supplier of fresh roast and ground gourmet coffee. A renowned distributor of domestic and commercial coffee machines and producers of a variety of beverage mixes and along with our partners in Switzerland, Singapore, Thailand, Cambodia, Hongkong, Malaysia and Vietnam. Boncafe has become one of the leading suppliers and roasters of fine coffee in the region.

Boncafe Middle East is a proud member of Massimo Zanetti Beverage Group, which acquired full equity share capital of the entire Boncafe Group inclusive of the roasting plants in Thailand and Singapore. The Massimo Zanetti Beverage Group is the largest and well known in the coffee industry and owns a network of successful companies and international brands such as Segafredo Zanetti, Chock full o'Nuts, Kauai and Hill Bros (USA), and Meira (Finland).

Complete One-stop Shop for Coffee Solution

Boncafe Middle East offers the complete package from the finest gourmet coffee blends, premium coffee machines and equipment brands all in addition to the full Segafredo Zanetti portfolio. With our extensive range of coffee & beverage products & service we provide a strong portfolio and a 'one stop shop' for coffee shop design or the complete beverage supply solution. Offering preventative maintenance programs, technical assistance, formidable after sales support, certified Barista training courses and beverage menu development these services are available through our experienced and professional in-house Barista Trainers, mixologist, our certified and highly skilled technical & maintenance team.

Our clients are thirsty for both fine gourmet coffee and coffee knowledge, ours is the role of the advisor and educator to provide this 'complimentary' specialist service through the art of coffee making and various level of training courses to ensure our clients make the finest coffees and beverages that can ultimately be produced!

International and Export

As a major exporter of coffee and other premium products, Boncafe Middle East are key supplier to distinguished HORECA & Foodservice companies throughout the Middle East and South East Asia, with a continued support to our customers with an impeccable after sales service wherever their operations develop.

Origin & Production

Carefully selected Thai beans are a combination of Arabica beans from the 'Misty Mountains' of the North, and Robusta beans from the 'Red Earth' soil which are roasted and blended to perfection at the company's own roasting plant using the most modern fluid-bed roasting technology.

Segafredo boasts of coffee plantations in Brazil with Nossa Senhora Da Guia considered as the largest single plantation in the world, Hawaii, Costa Rica and Vietnam. Coffees are cultivated and picked with the most accurate control at each stage guaranteeing a superior and constant quality from the plant to the cup and always employ production techniques that are sustainable and environmental friendly.

Quality

Boncafe and Segafredo coffee laboratories assure stringent quality control and tractability of each single production batch. Modern packaging technology (nitrogen-flushing, one way valves) and pressurized tins preserve the unique coffee flavours, aromas and taste guaranteeing consistent great top quality and freshness.

BONCAFÉ

Boncafé Gourmet coffees are roasted in Italy with blends created from combinations of high grade Arabica and Robusta beans sourced from Central and South America, Africa and India. Each coffee profile combination provides different bodies and flavours for a truly Italian espresso taste.

Our foodservice customers include leading international airlines, luxury hotels, resort, restaurants, cafés, exclusive clubs, food and beverages establishment, international corporations and businesses.

Within the Boncafé roasting facilities in Italy, Thailand and Vietnam our coffee blends follow strict and high level quality control production and traceability options.

Power :	380v - 3phase / 4500 - 7000w
Water :	Direct water line connection

*Available NEW 105 E (Electronic Version)

100 Touch Sprint

100 Touch sprint is a compact edition of 100 touch series.

2 Group Dimension: W650 x D570 x H515 (mm)

Power :	380v - 3phase / 3000 - 4500w
Water :	Direct water line connection

100 Practical T

Touch technology display that permits a very ergonomic use of the keyboard (touch brewing selection) and that gives very useful information to the user.

1 Group Dimensions: W410 x D570 x H515 (mm)

Power :	220v - 1phase / 2000w
Water :	2.5 litre water tank

Infrared Optical Sensor

SM TK Smart Instant Espresso Grinder

Advance new internal system detects which type portafilter is used and prepress the exact portion for single or double shot of espresso without pressing any button.

Dimensions: W200 x D355 X H610 (mm)

Power :	220v - 1phase / 650w
---------	----------------------

SM 97 Instant Espresso Grinder

on demand (fresh ground) dosing coffee grinders with electronic dose adjustment.

Dimensions: W200 x D355 X H570 (mm)

Power :	220v - 1phase - 460w
---------	----------------------

CAFE AT HOME

la marzocco
HOME

the iconic design and performance of a la marzocco comes home.

LINEA MINI

Comes with dual boilers and an integrated brew group that allows the machine to achieve the temperature stability and energy efficiency.

Dimensions: W357 x D453 x H377 (mm)

Power :	220-240v - 1phase / 1620 - 1820w
Water :	2.5 litre water tank

GS3 MP (Mechanical Paddle)

This Coffee Machine puts the innovation and technology of commercial grade La Marzocco machines within reach of home baristas.

La Marzocco technology and translate it for a home espresso machine.

The GS3 features the thermal stability system used in the La Marzocco S trada, including a preheating system, digital PID controller, saturated groups, a dual-boiler system, and digital display.

Mechanical Paddle: The new conical mechanical paddle is inspired by the original mechanical group used on the La Marzocco GS – the first dual-boiler espresso machine with saturated groups (1970).

GS3 MP / GS3 AV

Dimensions: W400 x D530 x H355 mm

Power :	220v - 1phase / 1620 - 2120w
Water :	2.5 litre water tank

GS3 AV (Auto Volumetric)

This model allows for programmable pre-infusion and water metering. As a result, you can pull consistently delicious shots

COFFEE GRINDERS

E65S Espresso Grinder

The E65S is the perfect synergy of proven premium espresso grinding technology and pioneering features, designed to meet the modern demands of coffee professionals around the globe.

Power:	220-240v - 1phase / 440w
Dimensions:	W195 x D283 x H583 (mm)

E80S Espresso Grinder

For coffee shops or individual baristas who are looking for high-quality, reproducible and accurate grinding results, MAHLKÖNIG's E80 Supreme is the fastest and most advanced premium espresso grinder in the market.

Power:	220-240v - 1phase / 800w
Dimensions:	W240 x D340 x H630 (mm)

E65S GbW

ESPRESSO GRINDER GRIND BY WEIGHT is the next espresso grinding revolution. It is the first espresso grinder ever, that features Grind-by-Weight technology for real-time scale controlled dosing.

Power:	220-240v - 1phase / 690w
Dimensions:	W283 x D445x H620 (mm)

E80 GbW Espresso Grinder

It is the first espresso grinder ever, that features Grind-by-Weight Technology for real-time scale controlled dosing as well as Mahlkönig's pioneering patented Disc Distance Detection that lets you set the degree of fineness based on the actual distance between the burrs

Power:	220-240v - 1phase / 690w
Dimensions:	W240 x D320 x H550 (mm)

Guatemala Shop Grinder

The classic went through a face-lift while keeping loved and proven technical specifications.

Power:	220-240v - 1phase / 1100w
Dimensions:	W220 x D33 x H620 (mm)

COFFEE GRINDERS

EK43S

The EK43 provides the most even extraction of the coffee's valuable aroma and is known to be a guarantor for an outstanding taste experience and a symbol for quality.

Power :	220-240v - 1phase / 1300w
Dimensions :	W230 x D410x H680 (mm)

EK43 / EK43T

The EK43 provides the most even extraction of the coffee's valuable aroma and is known to be a guarantor for an outstanding taste experience and a symbol for quality.

Power :	220-240v - 1phase / 1300w
Dimensions :	W230 x D410 x H830 (mm)

HOME GRINDERS MACHINE

X54

The X54 Allround Home Grinder is the home barista's gateway to pro-level grinding and more delicious coffee.

Power :	220-240v - 1phase / 1300w
Dimensions :	W230 x D410x H680 (mm)

H1 allround Grinder

Grind for any brew method with ease makes it even easier to brew espresso, plus all your favorite filter methods with the turn of a dial.

Power :	240-220v - 1phase / 200W
Dimensions :	L230 x W138 x H470 mm

Lux D Espresso Grinder

The Lux D grinder is the result of a collaboration between La Marzocco Home and Mazzer to build an optimized home espresso grinder.

Power :	220-240v - 1phase / 250 Watt

D449 Thermal Dispenser

The L4D Series LUXUS Thermal Coffee Stainless Steel, 1.5 gal Dispensers are a stylish self-serve option for hotel lobbies, breakrooms, cafes, quick-serve restaurants, office coffee service, C-Stores, and anywhere cups per hour volume is light or countertop space is limited.

AUTOMATIC TAMPER

Q1 Automatic Tamper

Most straight forward model and delivers an incredible even tamp in just 1.3 seconds.

All types of portafilters. Naked, Single sprout and double sprouts.

Tamper Diameter: 58 mm
 Tamper shape: flat bottom
 Adjustable pressure: 10 - 30 kg (+/- 1kg)

Power :	220-240v - 1phase / 60w
Dimensions :	W125 x D150 x H220 (mm)

Q2 Automatic Tamper

Contains our most advanced technology and does everything a Barista could wish for.

All types of portafilters. Naked, Single sprout and double sprouts.

Tamper Diameter: 58 mm
 Tamper shape: flat bottom
 Adjustable pressure: 10 - 30 kg (+/- 1kg)

Power :	220-240v - 1phase / 60w
Dimensions :	W125 x D150 x H220 (mm)

PuoqPress MINI

MINI looks as stunning as his bigger siblings with it's premium colors & matt finishing

All types of portafilters. Naked, Single sprout and double sprouts.

Tamper Diameter: 58,3 – 53,0mm
 Tamper shape: flat bottom
 Adjustable pressure: 10 - 30 kg (+/- 1kg)

Power :	220-240v - 1phase / 60w
Dimensions :	W136 x D181 x H272 (mm)

M1 Automatic Tamper

Designed to fit under your K30 or Peak BY MAHLKÖNIG & DITTING

Power :	220-240v - 1phase / 72w
Dimensions :	W230 x D300 x H17 (mm)

M2 Automatic Tamper

Designed to fit under your MYTHOS 1 & -2 BY VICTORIA ARDUINO AND SIMONELLI

Power :	220-240v - 1phase / 72w
Dimensions :	W28.5 x D38 x H17 (mm)

M3 Automatic Tamper

Designed to fit under your E65S & E65S GBW BY MAHLKÖNIG

Up to 10 kg of coffee per week

Power :	220-240v - 1phase / 72w
Dimensions :	W194 x D283 x H147 (mm)

El Bandido Panini Press

The first rapid cook oven that can operate as a high-speed/high-quality panini press with the flexibility to rapidly cook nonpressed foods.

The panini press is externally actuated so the operator can choose to press a product.

Machine Dimensions: W406 x D (993) 658 X H635 (mm)

Power :	230v - 3ph / 60 Hz / 20 amps

The SOTA i1

The Sota oven provides superior speed and cooking performance in TurboChef's smallest, most energy-efficient package.

Machine Dimensions: W406 x D 757 X H635 (mm)

Power :	230v - 3ph / 60 Hz / 20 amps

The ECO

Small but %100 TurboChef

The Eco oven is the most energy-efficient TurboChef oven and our smallest footprint – only 16inches wide, 22 inches deep.

Machine Dimensions: W555x D585 X H935 (mm)

Power :	230v - 1ph / 60 Hz / 16amps
Water :	Direct water line connection

i3

The i3 oven maximizes throughput and versatility with its large cavity size and ability to cook with most any metal pan up to a half-size sheet pan.

Machine Dimensions: W622 x D792 X H540 (mm)

Power :	230v - 3ph / 60 Hz / 20 amps

i5

The i5 oven maximizes throughput and versatility with its large cavity size and ability to cook with most any metal pan up to a full-size hotel or gastronome pan.

Machine Dimensions: W714 x D718 X H618 (mm)

Power :	230v - 3ph / 60 Hz / 20 amps

The Double Batch

The Double Batch oven has two independent cavities that circulate impinged air at speeds of up to 50 mph to create high heat transfer rates and reduced cook time. The oven utilizes variable speed blowers, oscillating racks, and catalytic converter, resulting in minimal energy input, high food quality, and ventless operation.

Machine Dimensions: W704x D805 X H589 (mm)

Power :	230v - 1ph / 60 Hz / 16amps
Water :	Direct water line connection

BWT besttaste

Dimension W280 x D280 x H500 mm

Power :	220-240v -1Phase / 3150w
Water :	Direct water line connection

Functioning

The reverse osmosis is a membrane filtration process which – in combination with high water pressure – filters from the water the dissolved substances such as lime and heavy metals, and lets through only pure water molecules. The fine membrane pores which hold back even micro organisms, such as bacteria, ensure that dissolved substances are almost totally removed.

Bestprotect Water Filter
Optimal protection against corrosion

FLOJET

Flo Jet Pump Water System
For coffee machine on trolley or for location without water outlet.

BONBARISTA | BARISTA TRAINING

Barista is a very powerful person in the coffee chain. Barista is the spokesperson for the hundreds or thousands of people who were involved with each coffee, prior to its arrival in the café or restaurant.

Barista speaks for the farmers, the processors, the roasters, the business owners, and indeed for coffee itself.

Level 1

Throughout this interactive practical session you will receive a general understanding of the history of coffee and its origin, how it's produced and the beverages that can be created from it. We will show you how to operate and maintain your machine and grinder correctly, the art of making perfect espresso and basic coffee recipes.
